

Calling All Inventors!!!

The Invention Convention course is in need of
your help

During our week together we will be creating models of new inventions. To do that we will be using some parts from old unwanted inventions. We are looking for donations of unwanted appliances, computers, or electronics (no TV's or computer monitors, please) that we can take apart and use. These items can be brought in with your child when they begin the Invention Convention course.

Thank you in advance for your support. We are looking forward to a week of innovation, creativity, and fun!
